The goal of this bibliography is to provide a useful sample of starting points for research and investigations on human security. The compilation is "*work in progress*" and will be regularly updated.

The bibliography should serve as a common knowledge resource. Creating a common knowledge resource, however also depends on the users. We would appreciate if you help us improving and updating the bibliography. An easy and simple way will be sending the author(s) or editor(s) an email informing them of publications currently not enlisted in the bibliography. We will add the item to the bibliography in due course.
